- + Outsole with a profile of 2,7 mm
- + Good scuff resistance
- + Absorbing structure
- + Heat-resistant up to approx. 120 °C

CUSHIONING

SECURA VARIO® System

The replaceable, weight and pressure dependent heel shock absorption system ensures cushioning adapted to the individual needs of the wearer. The pressure load in the shoe is reduced to a natural extent and provides targeted relief to the back. At the same time, it helps to significantly reduce fatigue and increases the ability to compensate pressure loads by the leg and trunk musculature.

 above 105 kg

 up to 105 kg
