COME HOME SAFE

GONE THROUGH THE FIRE, UP TO EVERY TRICK
AND READY FOR THE GREATEST CHALLENGES

Our mission is to ensure that you return home safe and sound. Thanks to years of experience and innovative design we have created firefighting models that are up to any challenge. In co-operation with fire service professionals, this has resulted in models that you can rely on even under the most extreme conditions. From maximum

heat to torrential conditions - our shoes are there to support you in every situation. With state-of-the-art technology and a deep understanding of the needs of firefighters, we not only offer models that meet the highest safety standards, but also ensure unrivalled comfort and performance.

STEITZ SECURA PLUS

GLOBALLY UNIQUE TECHNOLOGIES FOR YOUR HEALTH

1 BACK VITAL SYSTEM

Our back vital system protects your back and musculoskeletal system thanks to a heel cushioning system that is customised to your weight.

2 CUSTOM-FIT METHOD

With our custom-fit method, we offer up to 4 widths for every shoe size. So our models fit perfectly and offer unrivalled comfort as well as a high level of step safety.

3 FOOT CLIMATE TECHNOLOGIE

Natural materials and a sophisticated ventilation structure ensure the ideal feel-good temperature for the foot. Our genuine leather insole helps you feel comfortable all day long.

Our safety shoes are not only comfortable to wear, they also reduce the risk of accidents. People who wear our shoes can concentrate fully on their work, become more efficient and have significantly less sick leave time.

TESTED AND FOUND TO BE GOOD:

The SECURA VARIO® system has been awarded the seal of approval by Aktion Gesunder Rücken e. V. for being particularly back-friendly. We are proud that our safety shoes meet the strict criteria of this renowned organisation. Aktion Gesunder Rücken e. V. works closely with doctors, health insurance companies and professional associations to ensure that only products of the highest quality receive this seal. Our safety shoes with the SECURA VARIO® system are the only ones that fulfil these high requirements!

Tested and recommended by the Forum:
Gesunder Rücken - besser leben e.V. and Bundesverband deutscher Rückenschulen (BdR) e.V.
(Federal Association of German Back Schools) Further information at: AGR e.V. - Stader Str. 6 - 27432 Bremervörde

INNOVATIVE FEATURES FOR THE HIGHEST DEMANDS

Our new firefighting boots have been specially developed by professionals for your needs. With outstanding features such as a specially moulded overcap for optimum protection, clamping hooks for individual adjustment of the lacing and an integrated RFID pocket, our boots set standards in terms of comfort and functionality. Developed to offer you safety and performance

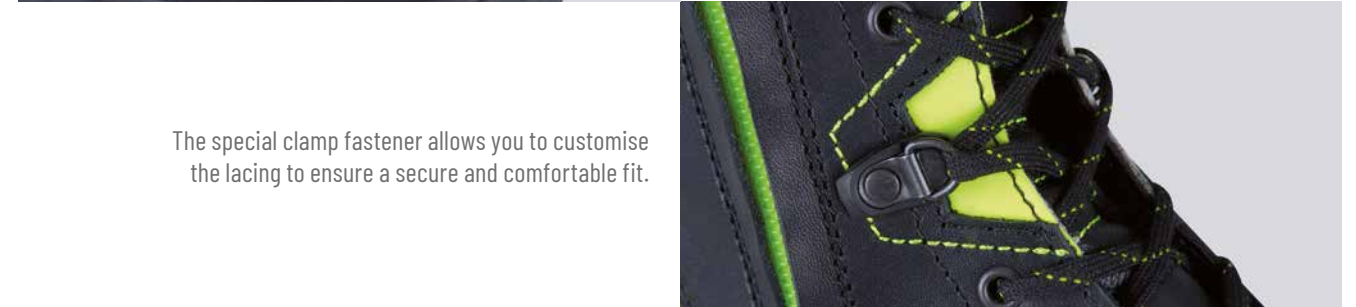

in every situation, our boots are equipped with a new outsole that is not only extremely slip-resistant, but also gives dirt no chance to stick thanks to its special negative profile. You will be delighted with the lightness of the work boots. Thanks to side zips or the BOA® FIT fastening system, our firefighter models can be put on and taken off at high speed.

THE FEATURES AT A GLANCE:

DESPITE THEIR ROBUST CONSTRUCTION, OUR FIRE BRIGADE MODELS IMPRESS WITH THEIR UNPRECEDENTED LIGHTNESS AND FIT.

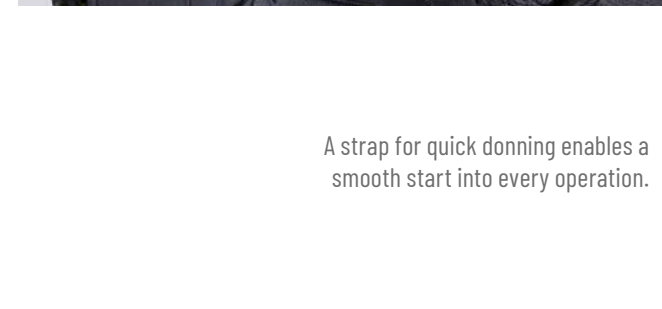

The robust overcap in a flattened design prevents material wear in crawling mode.

The special clamp fastener allows you to customise the lacing to ensure a secure and comfortable fit.

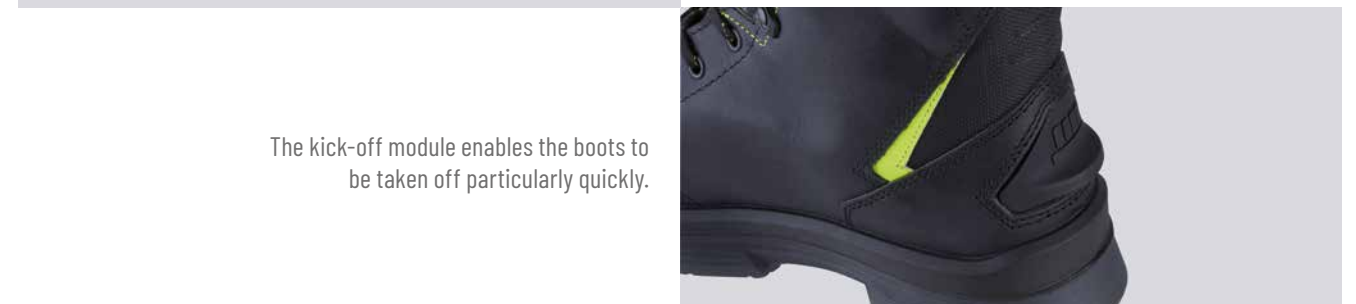

The integrated RFID pocket makes it easy to place a chip for identification or other important information.

A strap for quick donning enables a smooth start into every operation.

The special sole with a two-part hardness grade not only offers outstanding slip resistance, but is also extremely flexible and stable at the same time to give you a secure grip in any situation.

The kick-off module enables the boots to be taken off particularly quickly.

FIRE FIGHTER III GTX CP1

EN ISO 15090:2012 F2A SRC HI3 CI
